TRAINING PROJECT

The Santa Teresa Campus enriches the university study path with a 50-hour annual training project signed by the student at the beginning of the Academic Year. On Campus the growth path develops in an international environment conducive to study, in a climate of discussion and freedom. All this is favored by a continuous training relationship with teachers of international origin and tutors who will accompany the student both in the context of scientific in-depth study and in the introduction to the world of work. This model is designed together with each student and will synergistically propose thematic meetings and personalized paths so that the student can discover skills and potential in a manner consistent with the chosen study plan and suited to university commitments. The thematic meetings are part of the «ACCADEMIA - Con il Cuore indiviso» project (<https://www.fondazionezanotti.org/education/accademia/>) which offers a structured, modular and open path composed of interdisciplinary courses and thematic insights with teachers and personalities of national and international importance capable of generating relationships and knowledge aimed at broadening the horizons of the participants. The path will be monitored together with the tutors through interviews carried out during the stay on the Santa Teresa Campus. Thanks to collaborations with national and international bodies and institutions, the student is placed in a wide-ranging context that generates opportunities.
